# Streaming Management System — ER Diagram

**Legend**

- Entity
- Weak entity (key comes from its owners)
- Relationship
- Identifying relationship (of a weak entity)
- Attribute · underlined = key · dashed underline = partial key
- Total participation (every row takes part)
- Partial participation
- 1 : N — Cardinality (1, N, M)
- Derived, not stored (dashed)

RECOMMENDATION is computed per request from the genre_taste view (watch history, ratings, My List, genre picks); it has no table in the relational schema. Key = (history_id, content_id).
